SUMMARY

Frontend Engineer with **2 years of experience** building **scalable and responsive web applications** using **React.js, Next.js, JavaScript, and TypeScript**. Experienced in developing **admin dashboards, lead management systems, authentication workflows, and API-driven applications**. Skilled in **reusable component architecture, state management, REST API integration, and frontend performance optimization**.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, HTML5, CSS3, Tailwind CSS, Zustand
Libraries & Tools: Axios, Framer Motion, Chart.js, React Query, React Hook Form, Zod, REST APIs, Git, GitHub, Postman, Figma, VS Code

Concepts: State Management, Reusable Components, Responsive UI Development, API Integration, Authentication & Authorization, Lazy Loading, Code Splitting, Cross-Browser Compatibility, Performance Optimization

Backend Familiarity: Node.js, Express.js, MongoDB, MySQL, JWT Authentication, Mongoose

EXPERIENCE

Software Developer 1

April 2026 – Present

YoekiSoft Pvt. Ltd.

Noida

- Developed responsive and scalable frontend applications using **Next.js, React.js, Tailwind CSS, and Mantine UI** for a Unified Management System in the banking domain.
- Built and integrated Corporate Onboarding, User Creation, and Mandate Form modules by consuming REST APIs and implementing form validations and state management.

Frontend Developer

April 2025 – April 2026

ABYM Technology Pvt. Ltd.

Noida

- Developed a centralized **Lead Management System** to track, manage, and convert leads efficiently using **React.js, Redux Toolkit, and REST APIs**.
- Designed and implemented a **Subscription Management System** with plan selection, renewal workflows, and wallet integration for seamless user transactions.
- Built reusable **dynamic form components** and centralized **state management workflows** for configurable and scalable application features.
- Developed an end-to-end **Hospital Management System** using **React.js, TypeScript, and Ant Design (AntD)**, including patient, doctor, and appointment management modules.
- Collaborated with backend teams for **API integration**, debugging, testing, and production deployment workflows.

PROJECTS

Kinetic UI - Animated React Component Library | *Next.js, TypeScript, Tailwind CSS, Framer Motion*

- Engineered a high-performance **UI component library** and documentation platform using **Next.js** and **TypeScript**, focusing on premium aesthetics, accessibility, and responsive design.
- Designed and implemented complex, fully responsive animated components (e.g., dynamic SVG data dashboards, interactive carousels) leveraging **Framer Motion** and **Tailwind CSS** for fluid micro-animations.
- Architected a scalable **component registry configuration** system to streamline developer adoption, enabling seamless integration via centralized CLI-ready installation commands.

Kiddos Tales - AI-Powered Story Generation Platform | *React.js, Tailwind CSS, Gemini API, Framer Motion*

- Developed an **AI-powered storytelling platform** using **React.js** and **Google Generative AI** for personalized multilingual story generation.
- Built customizable story workflows with support for **story themes, tones, age groups, hero traits**, and etc.
- Implemented an interactive **book-style reading experience** with page flip animations, **text-to-speech narration**, and audio playback controls and responsive UI animations using **Framer Motion**.

EDUCATION

JECRC University

Bachelor of engineering in Computer Science

Jaipur, RJ

July 2020 – July 2024
